Elaine,

I spoke with HR here after our phone call. She told me that her office does not do anything with the contractors foreign nationals. She said the contractors HR would deal with all of this! Pretty frustrating. She didn't know anything about UFGS 00 73 01 had never heard of it.

I went to admin they had no idea what I was talking about I also asked admin about a COMNAVBASEGTMOINST 11300.3 that is called out in the UFGS it is no longer an active instruction and they could not even tell me what it pertained to.

Let me know if you need any other info.
